

SEDN minutes February 2015

Present: Pete Boardman, Alex Lockton, Bernadette Micklewright, Nicola Stone, Sue Townsend, Sarah Whild, Dan Wrench

1. Progress in 2014-15

Most Tsars have fulfilled their contracts, except that we are waiting for data from John Morgan; Alan Hale has been unwell and has not done any work on the web site or the web database; and John Handley and Mark Duffell completed only half of their surveys.

It was agreed that John Handley could invoice for half and submit another bid if he wanted to for next year, but last year's would not be carried forward. The web site work would be cancelled.

2. The following grant applications were approved and orders will be issued either straight away or when the funds arrive in the account:
